Development Process

This part outlines the City's Development Permit Process and related requirements and procedures.

Development Permit Requirements

2.1 CONTROL OF DEVELOPMENT

- (1) Except as provided in section 2.2 'Development Not Requiring A Development Permit,' no *development* shall be allowed unless a *Development Permit* has been issued for it.
- (2) If the use of a *building*, or a portion of a *building*, ceases for six months or less, re-establishment of the same or substantially the same use in the premises does not require a *Development Permit*, provided no structural changes are made to the space. If structural changes are made, a new *Development Permit* is required.
- (3) If the use of a *building*, or a portion of a *building*, ceases for more than six months, the *Development Permit* that authorized that use is of no further force or effect and re-establishment of that use, or the establishment of any other use in the *building*, requires a new *Development Permit*.
- (4) Sections (2) and (3) do not apply to the use of *dwelling units*.
- (5) All *developments* that require a *Development Permit* must be in compliance with the terms and conditions of the *Development Permit*.
- (6) All *development* must be in compliance with the regulations of this Bylaw.

2.2 DEVELOPMENT NOT REQUIRING A DEVELOPMENT PERMIT

- (1) A *development* described in Table 2-1 does not require a *Development Permit*, provided the *development* complies with all applicable *development* regulations and other requirements of this Bylaw. If a *development* requires a *variance* (Section 2.15), a *Development Permit* is required for the *development*.

- (1) Subject to the limitation on the discretion to approve a *variance* set out in sections (2) to (9), the *Development Authority* may approve a *variance* up to a maximum of 25% above any applicable measurement limit set out in this Bylaw if, in their opinion, the proposed *development* with the *variance* would not:
 - (a) Unduly interfere with the amenities of the neighbourhood; or
 - (b) Materially interfere with, or affect the use, enjoyment, or value of, neighbouring properties.
- (2) In considering whether to approve a *variance* under section (1), the *Development Authority* shall:
 - (a) Consider the general purpose and intent of the applicable District;
 - (b) Consider whether the *variance* results from, or is related to, an aspect or feature that is specific to the land or *building* in question, not shared by a significant number of other lands or *buildings* in the *City*; and
 - (c) Not approve a *variance* when the *variance* will cause a *building* or use to be out of compliance with federal, provincial, or other municipal laws or regulations, including the 'Safety Codes Act, RSA 2000, c. S-1.'
- (3) Applications or requests for a *variance* relating to building height, *setbacks* from *property lines*, and other regulations that may affect the compliance of a *building* with municipal, provincial, or federal laws or regulations may be circulated to affected departments for review and comment prior to a decision on the application for the *Development Permit*.
- (4) A *Development Permit* decision, where a *variance* has been approved, shall contain a *Development Permit* condition identifying the nature and scale of the *variance*.
- (5) Except as otherwise provided in this Bylaw, there shall be no *variance* from the regulations prescribing floor area, *lot coverage*, *density*, or a *site density bonus*.
- (6) In the case of a request for a *variance* involving a *sign*, the *Development Authority* shall assess the merits of a 'Comprehensive Sign Plan' (section 6.7) and may vary the number of *signs* permitted per *site* if:
 - (a) The proposed *sign* types are allowed within the District;
 - (b) The proposed *signs* otherwise comply with the *sign* type regulations outlined in Part 6: Signage; and
 - (c) In the opinion of the *Development Authority*, the *comprehensive sign plan* results in a greater degree of visual harmony and consistency between the proposed *signs*, the *buildings*, the *site*, and adjacent lands.

- (7) In the ICC District, the *Development Authority* may vary *building* height (section 5.19(8)); *building setbacks* (section 5.19(9)); *separation distance* (section 5.19(10)); design, character, and appearance (section 5.19(11)); pedestrian circulation (section 5.19(12)(c)); *landscaping* (section 5.19(12)(f)); *vehicle* circulation (section 5.19(12)(g)); or *parking* and loading (section 5.19(13)), if, in their opinion:
 - (a) The *variance* is proposed in order to accommodate characteristics which are fundamental to the nature of the Urban Village concept and is in keeping with the purpose of the District, and
 - (b) The *variance* to building height (section 5.19(8)), or building *setbacks* (section 5.19(9)), is in order to accommodate other design solutions which offer equivalent daylight, ventilation, quiet, visual privacy, or views.
- (8) For *retail (cannabis)* use, the prescribed minimum *separation distances* in section 3.93(1) may be varied by an amount not exceeding 10.00 m.
- (9) When considering a *variance* to *parking* requirements, the *Development Authority* may require a Parking Demand Study, to determine whether adequate *parking* for the *development* can be provided on *site*.

2.16 DEVELOPMENT PERMIT

- (1) The *Development Authority* may impose one or more conditions of approval of a *Development Permit*, based on the application of land use planning considerations or principles to the circumstances of a proposed *development*, or to ensure compliance with this Bylaw, regardless of whether the *development* is a Permitted Use or a Discretionary Use in the District in which it is proposed to be located.
- (2) Without limiting the generality of section (1), the *Development Authority* may impose a condition of approval of a *Development Permit* that:
 - (a) Requires that the Applicant enter into an agreement with the *City*, satisfactory to the *City*, to provide for any matter or thing relevant to the *development* or to the relationship between the Applicant and the *City* arising from the *development*, including, without limitation, an agreement to do any or all of the things described in section 650(1) or section 651 of the *MGA*; or
 - (b) Specifies a time limit on the *Development Permit* approval in the case of a *Development Permit* for a Discretionary Use or for a Permitted Use.

2.17 DEVELOPMENT PERMIT CONDITIONS FOR LANDS SUBJECT TO FLOOD OR SUBSIDENCE

- (1) Without limiting the generality of the scope of *Development Permit* conditions set out in section 2.16, and in addition to the 'Designated Flood Line' regulations (section 3.13), where a *development* of a *building* is proposed to be on land which, in the opinion of the *Development Authority*, may be subject to flooding or subsidence, or that is low-lying, marshy, or unstable, or is adjacent to or includes the *designated flood line*, or that lies in whole or in part within 100.00 m of the shore of any lake, river, stream, or other body of water, the *Development Authority* may impose *Development Permit* conditions that take

into account the condition of the land, the provisions of this Bylaw, and the provisions of any applicable Statutory Plan or Neighborhood Plan, including conditions:

- (a) Requiring soils and geotechnical reports to be completed prior to or concurrently with the construction of any *development*;
- (b) Requiring foundations, footings, drainage, and any other aspects of the *building* to be designed and certified by a Professional Engineer;
- (c) Requiring the *development* to be constructed in accordance with the plans and recommendations of a Professional Engineer;
- (d) Requiring that a Professional Engineer inspect all or part of the proposed *development*;
- (e) Requiring compliance with specified design criteria, including flood proofing provisions, sedimentation and erosion control measures; and
- (f) Requiring a certificate from a Professional Engineer that all inspections have been satisfactorily completed, that all design criteria have been complied with, and that all conditions have been met.

Validity, Cancellations, and Appeals

2.18 DEVELOPMENT PERMIT VALIDITY

- (1) When a *Development Permit* has been issued, the *Development Permit* becomes valid only when:
 - (a) All conditions of the *Development Permit*, save those of a continuing nature, have been fulfilled; and
 - (b) Either no appeal has been commenced within the time prescribed by statute for doing so or, if an appeal has been commenced, the appeal has subsequently been withdrawn by the appellant, or has been fully and finally adjudicated by the appeal body having jurisdiction, including any subsequent appeal to the courts.

2.19 APPEAL BODY DEVELOPMENT PERMITS

- (1) When an appeal body issues or directs the *Development Authority* to issue a new or revised *Development Permit* resulting from an appeal of a *Development Permit*, or a condition of a *Development Permit* issued by the *Development Authority*, the new or revised *Development Permit* issued or ordered by the appeal body becomes valid only when any conditions of approval, save those of a continuing nature, have been fulfilled, unless the written decision of the appeal body specifies otherwise and no notice of appeal is served on the *SDAB* or the *LPRT* within the prescribed time.
- (2) Upon service on the *City* of an application for permission to appeal the decision of the *SDAB* or *LPRT*, under the *MGA*, the *Development Permit* is suspended.
- (3) The *Development Permit* issued by the *SDAB* or *LPRT*, and suspended pursuant to this Bylaw, remains suspended until:
 - (a) The Court of Appeal denies permission to appeal, and any appeal from that denial has been finally determined;
 - (b) The appeal is withdrawn; or
 - (c) The Court of Appeal has granted permission to appeal, heard the appeal on the merits, made its decision, and any appeal to the Supreme Court of Canada from that determination by the Alberta Court of Appeal has been finally determined.

2.20 DEVELOPMENT PERMIT REMAINING IN EFFECT

- (1) Unless otherwise provided in this Bylaw, a *Development Permit* ceases to be in effect if:
 - (a) The *Development Permit* is suspended or cancelled, pursuant to section 2.21;
 - (b) The *development* for which the permit is issued has not commenced within 24 months of the date the permit is issued; or

- (c) The *development* for which the *Development Permit* is issued has commenced but no physical work to complete the *development* has occurred for a period of 12 months.
- (2) The 24-month period referenced in section (1)(b) shall be suspended upon commencement of an appeal and shall remain suspended until:
 - (a) The appeal body issues a written decision in respect of the appeal, and no further appeal to the Court of Appeal is commenced within time;
 - (b) The Court of Appeal denies permission to appeal, and any appeal from that denial has been finally determined;
 - (c) The appeal is withdrawn; or
 - (d) The Court of Appeal has granted permission to appeal, heard the appeal on the merits, made its decision and any appeal to the Supreme Court of Canada from that determination by the Court of Appeal has been finally determined.
- (3) A *Development Permit* for a *variance* or Discretionary Use comes into effect 21 days from the date public notice is issued. Subject to section (4), a *Development Permit* for a Permitted Use comes into effect on the date it is issued.
- (4) When a *Development Permit* for a Permitted Use is issued, the applicant may commence *development* prior to the close of the 21-day appeal period, at their own risk.

2.21 REVOKED OR SUSPENDED DEVELOPMENT PERMIT

- (1) If, after the issuance of a *Development Permit*, it becomes known to the *Development Authority* that:

2.22 FEES FOR DEVELOPMENT APPEALS

- (1) A person who appeals a *Development Permit*, a condition of a *Development Permit*, or a Stop Order, must pay the administrative fee prescribed for filing the appeal as set out in the *Master Rates Bylaw*.

2.23 REPEAT APPLICATION

- (1) When an application for a *Development Permit* has been refused by the *Development Authority*, and that decision has either not been appealed or has been upheld on appeal, or when a *Development Permit* has been cancelled, an application for a *Development Permit* for the same or substantially the same use, shall not be accepted by the *Development Authority* from the same or any other Applicant for the same *site*, within six months of the date of refusal or cancellation, or, where applicable, within six months of the decision on appeal.
- (2) Section (1) shall not apply in the case of a subsequent application for a *Development Permit* following a refusal, if the application complies with all the regulations of this Bylaw and does not require approval of a *variance*.
- (3) If, upon review of any application for a *Development Permit*, the *Development Authority* determines that section (1) applies, then the Applicant shall be so advised in writing and any application fees that have been paid shall be refunded. Such application shall not be considered as having been refused, but shall be deemed not to have been submitted.
- (4) Notwithstanding section (1), if two or more *Development Permit* applications from the same Applicant for the same or substantially the same use on the same *site* have been refused by the *Development Authority* or on appeal, a third and any subsequent *Development Permit* application for that use on that *site* shall not be accepted by the *Development Authority* until one year from the date of the most recent refusal, unless that application is for a use that complies in all respects with the requirements of this Bylaw and does not require approval of a *variance*.

Non-Conforming Development

2.24 NON-CONFORMING DEVELOPMENT

- (1) The *Development Authority* may approve as a Discretionary *development* in any District, an enlargement, alteration, or addition to a non-conforming *building*, if such approval does not contravene section 643 of the *MGA*, and if the non-conforming *building* complies with the uses prescribed for that District in this Bylaw, and if the proposed enlargement, alteration, or addition would not, in the opinion of the *Development Authority*:
 - (a) Unduly interfere with the amenities of the neighbourhood; or
 - (b) Materially interfere with or affect the use, enjoyment, or value of neighbouring properties.

Compliance Certificate

2.25 COMPLIANCE CERTIFICATE

- (1) The registered owner, or a person with a registered legal or equitable interest in a *site*, may apply to the *Development Authority* for a *Compliance Certificate*.
- (2) The Applicant for a *Compliance Certificate* shall submit two original *Real Property Reports* that have been produced no more than five years prior to the date of the application, along with the fees outlined in the *Master Rates Bylaw*.
- (3) The *Development Authority* may issue a *Compliance Certificate* when, in their opinion, the *buildings* as shown on the *Real Property Report* are located on the *site* in accordance with the *separation distance*, and yard and building *setback* regulations of this Bylaw, or the yard or building *setbacks* specified in any *Development Permit* which may have been issued.
- (4) The *Compliance Certificate* shall only reference those *buildings* shown on the *Real Property Report* as provided by the Applicant.
- (5) The *Development Authority* may refuse to issue a *Compliance Certificate* when, in their opinion, they do not have sufficient information to determine if *buildings* as shown are located in accordance with the yard and building *setback* regulations of this Bylaw, or the yard or building *setbacks* specified in any *Development Permit* which may have been issued for the *site*.
- (6) A *Compliance Certificate* is not a *Development Permit*.

Part 3

General Regulations

This part outlines general regulations that apply to all development in St. Albert.

City-Wide Regulations

3.1 APPLICATION

- (1) Sections 3.2 through 3.42 apply to all Districts under this Bylaw.

3.2 CONFORMANCE TO OTHER PLANS

- (1) The *Development Authority* may, with respect to any use:
 - (a) Require that a *Development Permit* comply with the policies of the Municipal Development Plan, an *Area Structure Plan*, an *Area Redevelopment Plan*, a *Neighbourhood Plan*, or a Concept Plan.

3.3 MEASUREMENT OF BUILDING HEIGHT

- (1) The height of a *building* is the vertical distance measured from *finished grade* to the highest point of the *building* as may be shown on a building elevation plan and building cross-section plan, as illustrated in *Figure 3-1*.
- (2) For the purposes of calculating building height, "*finished grade*" shall be measured using the lowest level of finished ground elevation adjoining a *building* at any exterior wall as shown on a *site plan*.
- (3) Notwithstanding section (1), the following are not considered part of the *building* for the purpose of measuring building height: elevator housing, mechanical housing, rooftop stairway entrance, ventilation fan, skylight, steeple, chimney, smokestack, parapet wall, flagpole, or similar feature not structurally essential to the *building*.
- (4) The following are considered part of the *building* for the purpose of measuring building height: solar collectors, *signs*, roof-mounted *telecommunication towers*, *satellite dish*, or *radio antenna*.
- (5) A *retaining wall* shall not be used to create a *finished grade* that achieves a greater building height than would otherwise have been possible by the original *grade* or topography of the *site*.

- (6) If doubt arises concerning the measurement of the height of an irregular *building*, it shall be determined by the *Development Authority* by applying this Bylaw as closely as is possible in the circumstances of the case.

Figure 3-1: Measuring Building Height

3.4 MEASUREMENT OF RETAINING WALL HEIGHT

- (1) The height of a *retaining wall* is the vertical distance measured from *finished grade* to the highest point of the *retaining wall*.
- (2) For a tiered *retaining wall* installation, if the *retaining walls* are separated by a distance less than two times the height of the lower wall, as illustrated in *Figure 3-2*, the height of the *retaining walls* will be considered and measured as one wall.

Figure 3-2: Measuring Retaining Wall Height

3.5 MEASURING SETBACKS

- (1) A front yard building *setback* is measured from the front *property line* of the *lot* and at right angles, or radially, to the *building*.
- (2) A side yard building *setback* is measured from the side *property line* of the *lot* and at right angles, or radially, to the *building*.
- (3) A rear yard building *setback* is measured from the rear *property line* of the *lot* and at right angles, or radially, to the *building*.
- (4) For the purpose of measuring building *setbacks*, a *setback* shall be measured from the *property line* to the nearest point of a foundation wall. *Architectural projections* are excluded when measuring a building *setback*.
- (5) If doubt arises as to the required dimensions or building *setbacks*, they shall be determined by the *Development Authority* by applying this Bylaw as closely as is possible in the circumstances of each case.

3.6 DETERMINING PROPERTY LINES

- (1) The front *property line* of a *lot* is:
 - (a) The *property line* that adjoins a *public roadway*, other than a *lane*; or
 - (b) In the LDR, SLR, LLR, or FBR Districts, on a *corner lot* for a *dwelling (single detached)*, *dwelling (semi-detached)*, *dwelling (duplex)*, *dwelling (townhouse - plex)*, or a *dwelling (townhouse - single)* the shortest *property line* that adjoins a *public roadway* other than a *lane*; and
 - (c) In all other cases, a *lot* adjoining two or more *public roadways* other than a *lane*, is considered to have a front *property line* adjoining each *public roadway* requiring compliance with the front yard requirements of the District in which the *lot* is located, notwithstanding that the *lot* is separated from the *public roadway* by a *public utility lot*.
- (2) The rear *property line* of a *lot* is the *property line* opposite to the front *property line*.
- (3) The side *property line* of a *lot* is the *property line* that connects the front and rear *property lines*.
- (4) If doubt arises as to which is a front, rear, or side *property line* of a *lot*, the *Development Authority* shall determine the respective *property line* by applying this Bylaw as closely as is possible in the circumstances of each case.

3.7 DETERMINING YARDS

- (1) The front yard of a *lot* is that part of a *lot* located between the side *property lines* of a *lot* in width and from the front *property line* of the *lot* to the nearest point of a foundation wall of any *building* on the *lot* in depth.

- (2) The rear yard of a *lot* is that part of a *lot* located between the side *property lines* of the *lot* in width and from the rear *property line* to the nearest point of a foundation wall of the *principal building* on the *lot* in depth.
- (3) The side yard of a *lot* is that part of a *lot* that is neither a front yard nor a rear yard, and is located between the side *property line* to the nearest point of a foundation wall of the *principal building*.
- (4) If two or more *lots* are consolidated, the *Development Authority* will determine the yards taking into consideration the surrounding existing *development* situated on adjacent *lots*. The *Development Authority* may request a *site plan* depicting proposed yards in order to make the determination.
- (5) If doubt arises as to which is a front, rear, or side yard of a *lot*, the *Development Authority* shall determine the respective yard by applying this Bylaw as closely as is possible in the circumstances of each case.

3.8 BARE LAND CONDOMINIUM UNIT

- (1) A *bare land condominium unit* shall comply with all the general regulations of this Bylaw and with the regulations applicable to the District within which the *bare land condominium unit* is located, as if the unit were a *lot* or *site*.
- (2) With the exception of common *property lines* on semi-detached or attached units, no *building* on a *bare land condominium unit* may encroach on any *property line*, utility easement, or right-of-way.
- (3) A bare land condominium plan shall be treated in all respects as though it were a plan of subdivision and shall comply with the requirements for a subdivision, including:
 - (a) Adequate pedestrian and *vehicle access*;
 - (b) Provision of supply of water, electrical power, gas, sanitary sewer, and storm drainage; and
 - (c) Sequencing and timing of construction of all *buildings* and servicing.

3.9 CORNER LOTS - GENERAL

- (1) In the LDR, SLR, LLR, or FBR Districts, a *lot* is considered to be a *corner lot* notwithstanding that the *lot* is separated from the *public roadway* along the side by a *public utility lot*.

3.10 CORNER LOTS - TRAFFIC SIGHT LINES

- (1) On a *corner lot*, there shall be no *development* greater than 1.00 m in height, within the triangular area created by the *property lines* that form the corner and a straight line connecting the two points 6.00 m back along these *property lines* measured from their intersection, as illustrated in *Figure 3-3*.

- (a) Notwithstanding section (1), a greater corner cut distance may be required by the *Development Authority*, in consultation with Engineering Services.
- (2) If a corner cut has been applied, the area in section (1) shall be determined 6.00 m back from what would have been the intersection of *property lines* if the corner cut had not been taken.
- (3) In the DTN District, the triangular area shall be determined using a line 4.00 m back from the intersection, unless another distance is required by the *Development Authority*.
- (4) In the MU1 District, traffic sight lines may be reduced at the discretion of the *Development Authority* in consultation with Engineering Services considering the safe functioning of *public roadways* and the provision of adequate vehicular sight lines.

Figure 3-3: Corner Cut for Traffic Sight Lines

3.11 DAYCARE FACILITY

- (1) A *daycare facility* that includes a playground shall provide a separate access to the playground area from the *principal building*, and the playground area shall be enclosed by a fence at least 2.00 m in height from *finished grade* subject to section 3.84 'Fences (Non-Residential).'
- (2) At the discretion of the *Development Authority*, a *daycare facility* may be required to provide a drop-off area for the loading and unloading of patrons from *vehicles* so that the *development* does not interfere with the regular flow of *on-site* or neighbouring traffic.

3.12 DESIGN, CHARACTER, AND APPEARANCE OF A BUILDING

- (1) All exterior surfaces shall have a finished treatment.
- (2) The design, character, and appearance of a *building*, including all *accessory buildings* and *relocatable buildings*, must be:
 - (a) Compatible with any other *buildings* existing on the *site* and in the vicinity; and

- (b) Consistent with the purpose and regulations of the District in which the *building* is located.
- (3) The exterior finish of a *building*, including a *dwelling (single detached)*, *dwelling (semi-detached)*, *dwelling (duplex)*, *dwelling (townhouse - plex)*, *dwelling (townhouse - single)*, or an *accessory building*, must be completed within two years of the date the *Development Permit* is issued unless otherwise stipulated by the *Development Permit*.

3.13 **DESIGNATED FLOOD LINE**

- (1) The *designated flood line* is indicated on the maps in [Schedule A](#).
- (2) The purpose of the *designated flood line* is to:
 - (a) Identify lands in the *City* that may be subject to flooding during a 1:100 year high-water event;
 - (b) Regulate *development* below the *designated flood line*;
 - (c) Confirm *development* is compatible and undertaken in accordance with the *Municipal Engineering Standards*;
 - (d) Not cause detrimental effects on the hydrological system of Carrot Creek, Big Lake, and the Sturgeon River, negatively impact water quality, or increase flood risk to downstream lands; and
 - (e) Ensure *development* of Discretionary Uses identified in section (4)(a) can be undertaken in a safe manner.
- (3) The *designated flood line* is the boundary of any filling of land.
- (4) Subject to section (4)(a), new *buildings* or substantial improvements are prohibited below the *designated flood line*.
 - (a) The following *developments* shall be the only Discretionary Uses below the *designated flood line*, shall be designed to meet or exceed the *City's Municipal Engineering Standards*, and require the approval of the *Development Authority* in consultation with the *City Engineer*:
 - (i) Flood erosion-control measures including *berms*, dikes, and *retaining walls*;
 - (ii) Stormwater management facility that meets the approval of the *City Engineer*;
 - (iii) *Public utility*;
 - (iv) Bridge or *public roadway*;
 - (v) *Campgrounds*, excluding serviced *campgrounds* with permanent *buildings*;

- (vi) Pedestrian walkways, *parks*, and trails;
 - (vii) Golf courses, excluding fairways, greens, or permanent *buildings*;
 - (viii) Outdoor recreation service uses limited to picnic areas and boating facilities that meet the approval of the *City Engineer*;
 - (ix) Fencing; and
 - (x) Non-intensive agriculture.
- (5) Regarding the Discretionary Uses in section (4)(a), the *Development Authority* may consider and require that a *Development Permit* for the *development* of land wholly or partially contained below the *designated flood line* be subject to such conditions as are necessary to ensure that the *development* is consistent with the purpose of section (2) prior to the issuance of the *Development Permit*. When a *Development Permit* application is submitted to the *Development Authority* for the *development* of a lot partially or wholly below the *designated flood line*, the *Development Authority* shall require the *development* to meet the following additional conditions:
- (a) A new *development* that has the potential to disrupt the normal hydrological process within Carrot Creek, Big Lake, and/or the Sturgeon River must submit appropriate technical report(s) and stamped plans, certified by a registered Professional Engineer, indicating mitigations have been considered and incorporated into the design of the proposed *development* to minimize the risk of *on-site* and *off-site* flooding damage, to the satisfaction of the *City Engineer* and Alberta Environment and Protected Areas;
 - (b) A new *development* including any *excavation*, *stripping*, or *grading* below the *designated flood line* along these watercourses shall be designed in consultation with and to the satisfaction of the *City Engineer* and Alberta Environment and Protected Areas;
 - (c) If required by the *Development Authority* in consultation with the *City Engineer*, the Applicant shall provide an emergency access plan prior to the issuance of a *Development Permit*; and
 - (d) The *Development Authority* may require that a *Development Permit* for the infilling of land below the *designated flood line* of Carrot Creek, Big Lake, and the Sturgeon River include appropriate technical report(s) and stamped plans, certified by a registered Professional Engineer, indicating mitigations have been considered and incorporated into the design of the proposed *development* to minimize the potential risk of *on-site* and *off-site* flood damage, to the satisfaction of the *City Engineer* and Alberta Environment and Protected Areas, prior to the issuance of a *Development Permit*.
- (6) A *building* which lawfully existed below the *designated flood line* before August 15, 2011, but which is not in conformity with these provisions, may be continued subject to the conditions outlined in section 2.24 'Non-Conforming Development' and the *MGA*.

- (7) For a *lot* adjacent to the *designated flood line* or of which a portion lies below the *designated flood line*, prior to the issuance of a *Development Permit*, the *Development Authority* shall require that the Applicant submit:
- (a) A set of stamped plans certified by a registered Professional Engineer or Architect which confirms the requirements of section 3.13 have been incorporated in the design of the proposed *development* and identifies the *freeboard elevation* at 0.50 metres above the *designated flood line*;
 - (b) Stamped plans shall be submitted, as provided for in the following requirements:
 - (i) The geodetic elevation of the proposed *building* or other *development* location, and the geodetic elevation of the lowest point of all openings to any proposed *building*; and
 - (ii) A certificate from a registered Professional Engineer or Architect indicating that the following factors have been considered in the design of the *building*:
 - (A) The flood-proofing of *habitable rooms*, electrical panels and heating units, and operable windows;
 - (B) *Basement* drainage; and
 - (C) *Site* drainage and, in the design for other *development*, the effect on the existing hydrological system, flood risk, and mitigation measures to minimize the risk of flood damage, *on-site* and downstream, to existing *development*.
- (8) The *Development Authority* shall circulate a *Development Permit* application for a *development* located on a property adjacent to, or wholly or partially below the *designated flood line*, and adjustments to the *designated flood line*, along with any accompanying technical reports and stamped plans certified by a registered Professional Engineer to the *City's* Engineering Department for review and comment with respect to the suitability of the proposed *development*.
- (9) Notwithstanding sections (2) through (8), nothing in section 3.13 or on the maps in [Schedule A](#) modifies, overrides, or changes the land use districting as shown in [Schedule A](#). The *designated flood line* regulations are in addition to the regulations of the underlying *Land Use District*. If there is a conflict between [Schedule A](#) and section 3.13 with a *Land Use District*, [Schedule A](#) and section 3.13 take precedence.
- (10) The *designated flood line* as outlined in the maps in [Schedule A](#) are presented for reference purposes only, have been generalized for presentation purposes, and are not guaranteed for accuracy. The *Development Authority* will rely on the information required under section (6) to determine the *designated flood line* on an individual property (inclusive of the 1:100 year flood line plus a 0.50 m factor of safety) except where, at the discretion of the *Development Authority*, the Applicant for a *Development Permit* provides appropriate technical information, certified and stamped by a registered Professional Engineer, that establishes the basis for an adjustment to the *designated flood line*.

3.14 DEVELOPMENT ON PROPERTIES IMPACTED BY THE DESIGNATED FLOOD LINE

- (1) The *Development Authority* shall circulate a *Development Permit* application to Engineering Services, for review and comment with respect to the suitability of the proposed *development*, for a *development* located on a property that includes the *designated flood line*.
- (2) The *Development Authority* may require, on *lots* containing the *designated flood line*, that the *development's* design, siting, *landscaping*, *screening*, and buffering, minimize and compensate for any objectionable and potential incompatibility with *natural areas*, waterways, wildlife habitat areas, and environmentally sensitive areas.
- (3) When required by the *Development Authority*, a *Development Permit* application shall be accompanied by an assessment of the environmental impact of the proposed *development* on the existing land uses, geology, soils, vegetation, fauna, wildlife habitat, water, and air.
- (4) All proposed *developments* below the 1:100 *designated flood line* shall comply with section 3.13 'Designated Flood Line.'

3.15 DRIVE-THROUGH

- (1) A *drive-through* shall be located:
 - (a) At the intersection of two or more *public roadways*, not including a *lane*;
 - (b) Between intersections, if there is an adjoining service road or a centre dividing strip on the adjacent *public roadway*;
 - (c) Adjacent to a roadway interchange; or
 - (d) In a *shopping centre* where, in the opinion of the *Development Authority*, the traffic associated with the *drive-through*, combined with other traffic, will not adversely affect *public roadways* or the internal traffic circulation for the *shopping centre*.

Schedule C

Established Neighbourhood Overlay

C.1 APPLICATION

- (1) Schedule C applies to all *lots* within the LDR District within the *Established Neighbourhoods* identified on *Figure 10-4*, for which the following *infill development* is proposed:
 - (a) New *dwelling (single detached)*, *dwelling (semi-detached)*, or *dwelling (duplex)* on a *lot* within an *Established Neighbourhood*;
 - (b) Renovations to an existing *dwelling* that result in an increase in height of 1.50 m or more, and/or an increase in *gross floor area* of the house of 25% or more; or
 - (c) Subdivision or consolidation of existing *lots*.
- (2) This schedule does not apply to a *dwelling (townhouse - plex)*.
- (3) Notwithstanding the regulations in this schedule, *infill development* shall comply with the following requirements for a *development* in the LDR District:
 - (a) Permitted Uses and Discretionary Uses;
 - (b) Floor area;
 - (c) *Lot area*;
 - (d) *Lot widths*;
 - (e) Maximum *lot size*;
 - (f) Attached *garage* or attached *carport*; and
 - (g) Side yard *setbacks*.
- (4) Notwithstanding the regulations in this schedule, *infill development* shall comply with section 3.65 for *lot depth*.
- (5) An infill review must be completed prior to submission of a *Development Permit* application.

C.2 PURPOSE

- (1) The purpose of Schedule C is to ensure that, in *Established Neighbourhoods*:

- (a) New low-density residential *development*, including *dwelling (single detached)*, *dwelling (duplex)*, or *dwelling (semi-detached)* houses, is compatible with the neighbourhood character and the *streetscape*; and
- (b) Significant renovations of existing *dwelling (single detached)* houses, *dwelling (duplexes)*, or *dwelling (semi-detached)* houses are compatible with the neighbourhood character and *streetscape*.

C.3 ADDITIONAL APPLICATION REQUIREMENTS

- (1) In addition to the application requirements of sections 2.4 and 2.5, an application for *infill development* must also provide, at the time of *Development Permit* application:
 - (a) A landscape retention and removal plan;
 - (b) A *site* servicing plan; and
 - (c) A *lot grading* and drainage plan.
- (2) In addition to the application requirements of sections 2.4 and 2.5, and section (1), the following may be required by the *Development Authority*:
 - (a) A sun/shadow study; or
 - (b) Public consultation in accordance with the *Public Participation Standards for Planning and Development Applications*.

C.4 LOT CONSOLIDATION AND SUBDIVISION

- (1) Two or more *lots* may be consolidated, or consolidated and re-subdivided, if the new *lots* meet the *lot* dimension requirements.

C.5 LOT COVERAGE

- (1) *Lot coverage* must be within 10% of the existing coverage for the low-density *development* on the immediately adjoining *lot* which has the greatest *lot coverage*.
 - (a) Notwithstanding section (1), the maximum *lot coverage* shall not exceed:
 - (i) 40% for a dwelling (single detached); and
 - (ii) 47% for a dwelling (semi-detached) or a dwelling (duplex).

C.6 BUILDING HEIGHT

- (1) When at least one of the adjoining houses on the *streetscape*, or both *frontages* for a *corner lot*, is less than 6.00 m in height, the maximum building height is 9.50 m, as illustrated in *Figure 10-1*.

- (2) The restricted *building envelope* does not apply where adjoining *development* on both sides of the *infill development* are two storeys or greater in height.

Figure 10-1: Restricted Building Envelope

C.7 LOTS ADJACENT TO REAR LANES

- (1) If a *lot* is adjacent to an accessible rear *lane*, the *driveway* and *garage* (should one be built) must be accessed from the *lane*.
- (a) Notwithstanding section (1), the *Development Authority* has the discretion to change this requirement if the *lot's* configuration, location, or topography does not allow for such access.

C.8 LOTS REQUIRING FRONT ACCESS

- (1) *Development* must conform to the type of access of the majority of *dwellings* along the adjoining *streetscape*. If the majority of *dwellings* have front drives leading to unobtrusive side or rear *garages*, or *carports*, the new *development* must remain consistent with that pattern.
- (2) Front access must conform to the following:
- (a) The maximum width of a front *driveway*, on a *lot* less than 12.20 m in width, is 5.50 m; and
- (b) The maximum width of a front *driveway*, on a *lot* equal to or greater than 12.20 m in width, is 7.50 m.
- (3) The maximum width of an attached *garage* that faces a front or a side *public roadway*, excluding a *lane*, is 7.30 m or 35% of the building *façade*, whichever is less.
- (4) The maximum projection of an attached *garage* is 3.00 m from the front or side of the *dwelling*, or within 1.00 m of the adjacent *garage* projections, if large front *garages* predominate on the street.

C.9 FRONT YARD SETBACK

- (1) The front yard building *setback* for a new *development* will be the average of the front yard building *setbacks* of the two adjoining properties.
 - (a) Notwithstanding section (1), if there is a discrepancy of greater than 1.50 m in the *setbacks* of the *building(s)* on the two adjoining *lots*, the *Development Authority* has the discretion to consider the *setbacks* of other houses along the street when determining the required *setback*.

C.10 CORNER LOTS - FLANKING SIDE SETBACKS

- (1) Any *development* within the rear 40% of a perpendicular *corner lot* will have a *setback* at least 1.00 m greater than the required side *setback* of the remainder of the *building*, along the flanking side, as illustrated in *Figure 10-2*.
- (2) Other *setback* requirements could be at the discretion of the *Development Authority*, based on maintaining the character of the *streetscape*.

Figure 10-2: Staggered Setback

C.11 REAR YARD SETBACK

- (1) The rear yard *setback* for a new infill *dwelling*:
 - (a) Where there is no attached *garage*, shall be a maximum projection of 4.60 m beyond the rear of the adjoining houses, but not closer than 10.00 m to the rear *property line*; or
 - (b) Where there is an attached *garage*, shall be a maximum projection of 6.10 m beyond the rear of the adjoining houses, but not closer than 6.00 m to the rear *property line*.
- (2) The depth of the rear yard of a new infill house must be a minimum of 40% of the depth of the *lot*. In addition, the house must not extend more than 4.60 m beyond the rear of the adjoining houses.

- (3) If the *garage* is attached to the house, the depth of the rear yard of a new infill house must be a minimum of 30% of the depth of the *lot*. In addition, the house must not extend more than 6.10 m beyond the rear of the adjoining houses.

C.12 MULTIPLE-LOT DEVELOPMENT

- (1) A multiple-lot *development* is when a subdivision has occurred to create new, low-density residential *lots*.
- (2) If a multiple-lot *development* is within a regular block, these regulations will be applied as a single calculation to all new subdivided *lots*.
- (3) The existing houses on either side of the entire proposed *development* will be used as guidelines for determining height, coverage, access, *setbacks*, and building depth, for a *dwelling (single detached)*, *dwelling (semi-detached)*, or *dwelling (duplex)*.
- (4) If a multiple-lot *development* is on a corner and perpendicular to the other houses on the block (*Figure 10-3*):
 - (a) The maximum *lot coverage* for each *lot* is as provided for in the LDR District regulations;
 - (b) The restricted building envelope (see *Figure 10-1*) applies to all *lots* if the adjoining house to the rear or side of the *lots* is less than 6.00 m;
 - (c) The front yard *setback* may be determined at the discretion of the *Development Authority*, using the adjoining houses to the rear or side of the *lots*, but shall not be less than 6.00 m;
 - (d) If the *lots* within the multiple-lot *development* have a mixture of front and rear *lane* access, access requirements and *driveway* locations shall be determined at the discretion of the *Development Authority*; and
 - (e) Additional requirements to ensure privacy for the adjoining existing *dwelling* to the rear of the new properties may be required, at the discretion of the *Development Authority*.

Figure 10-3: Multiple-Lot Developments

C.13 LANDSCAPING

- (1) If there are no existing mature trees on the *site* that can be preserved, *landscaping* shall be provided in accordance with section 3.102 'Trees.'
- (2) The *Development Authority*, in considering an application, may impose conditions requiring the retention of trees or additional plantings.
